

9th International Conference on Engineering and Emerging Technologies

CALL FOR PAPERS

OCTOBER 27 - 28

IMPORTANT DATES

ISTANBUL, TURKEY

Paper Submission: 15 July 2023

Early Bird Registration: 20 August 2023

Acceptance Notification: 15 August 2023

Camera-ready Submission: 30 August 2023

ABOUT

The Superior University Lahore, Pakistan and Istanbul Topkapi University, Turkey are going to organize "Ninth International Conference on Engineering and Emerging Technologies (ICEET 2023)" in collaboration with IEEE Turkey Section on 27-28 October 2023.

This two-day international conference will be held at the historic, beautiful, and mega city of Istanbul, Turkey. Experts will be invited to deliver their keynote talks, speeches, session talks, panel discussions, contributory lectures, and poster presentations related to the topics.

This conference will provide opportunities for academia representatives, researchers, students, industrialists, engineers, scientists, professionals, policymakers and investors, to review recent developments in the areas related to Electrical, Electronics, Computer and Communication Engineering and Technologies. The conference covers many topics under different fields such as power and energy, smart grids, industrial process control, intelligent bio-medical diagnostic systems, and wireless communications, signal and image processing, embedded systems, networks & security, Internet of things & big data and software engineering & agile development. The outcome of the lectures, expert discussions and presentations will help our societies in Asia and particularly in Turkey & Pakistan and will open new avenues in developing solutions to future smart systems and technologies.

Authors can submit papers at:
www.iceet.net

Venue: Istanbul Topkapi University, Turkey

SCOPE AND INTERESTS

Areas of interest include, but are not limited to:

- Modern Communication Technology
- Robotics and Automation
- Image Processing
- Nanotechnology
- Signal Processing
- Alternate Energy Systems
- Antenna & Wave Propagation
- Next Generation Networks
- Human Computer Interaction
- Power Electronics and Circuits
- Heterogeneous Networks
- Energy Efficient Buildings
- Wireless Transfer Systems & Meta-Materials
- Technology Entrepreneurship
- Smart Grids & Energy Management
- Software Engineering
- Information Security
- Circuits & Systems
- VLSI Designs
- Data Science
- Internet of Things
- Cloud Computing
- Data Mining and Knowledge Discovery
- Pervasive & Ubiquitous Computing
- Multimedia Services
- Artificial Intelligence
- IT Policy & Business Management
- Future Internet Architecture
- Game Theory & Technology
- Computer Aided Designs
- Computer Networks & Security
- Education & Technologies (E-learning)
- Biomedical Engineering & Systems
- Developments in Aviation Technologies
